

Role: Project Manager

Location: Ireland - Nationwide

Salary: Competitive

The Role:

We are seeking an experienced Project Manager to join our growing water and wastewater business. It is a great opportunity for a driven individual to join an enthusiastic and ambitious company who are already strongly established in the Irish Market.

Main Duties and Responsibilities:

- Responsibility for overall management of the project(s) from detailed design to handover.
- Manage subcontractors on site.
- Prepare and manage programs using MS Project and Primavera.
- Monitor progress against the program and issue progress reports.
- Produce look ahead programs to assist production.
- Ensuring that quality throughout project delivery is maintained and meets the business policy.
- Ensure that all projects are delivered to the health, safety, environmental and quality standards required by Glan Agua and the client.
- Management of and coordination of, and delegation to, the assigned project engineering staff, and site management and supervision staff.
- Prepare valuations for submittal to the client on a monthly basis.
- Responsible for commercial negotiations with key suppliers and sub-contractors.
- Ensuring the highest standards of safety and environmental protection are consistently maintained.
- Management of the supply chain of the different projects they are responsible for.
- Ensure that payment applications are processed in accordance with the CCA2013.

To apply for a position please send CV and cover letter to hr@glanagua.ie.
